

## Copilot

Sure, I'd be happy to help!

### **(1) Bug Description and Required Fixes:**

The main issue in your program is the condition inside the `if` statement. The condition `N % i != 0` should be `N % i == 0` to check if `i` is a divisor of `N`. Additionally, the `&&` operator should be used to ensure that the divisor is also divisible by 3.

### **(2) Hint:**

Check the condition that verifies if `i` is a divisor of `N`.

Good luck with your debugging! If you need more help, feel free to ask.
