

## Copilot

Sure, I'd be happy to help!

### **(1) Description of the Bug(s) and Required Fixes:**

The main issue in your program is the condition inside the `if` statement. The condition `N % i != 0` should be `N % i == 0` to check if `i` is a divisor of `N`. Additionally, the `&&` operator should be used to combine this condition with the check for divisibility by 3.

### **(2) Hint:**

Ensure that the condition correctly checks if `i` is a divisor of `N`.
